VISITOR RESTRICTION GUIDELINES Women's Services

As the situation related to the spread of Covid-19 continues to change, Inova Health System is committed to keeping team members, patients and the broader community safe. Beginning March 23, 2020 at 5 p.m., Inova will implement enhanced visitor restrictions for the Women's areas, including:

- Support person has 24/7 visitation on Family Centered Care (FCC) and Labor & Delivery (L&D); must be the same person.
- Visitation is limited to one support person for duration of hospitalization.
- No children (including siblings) are allowed to visit.
- Doulas will not be permitted.
- During antenatal testing, only patients will be allowed to enter the exam room. The accompanying father/support person should remain in their car/outside the hospital. The doctor will call to confer any necessary information.

For High Risk Perinatal patients, children visitation will be on a case by case basis.

Thank you for your support in maintaining our mission to provide world-class healthcare to each person in every community we have the privilege to serve.
